About Dr. Chuck De Groat

I have enjoyed a fluid combination of pastoral ministry, clinical counseling, and seminary teaching for the past 12 years, most of it spent in Orlando, FL. In 2008, I took a position with [City Church](#) (San Francisco), where I serve on the pastoral staff. Together with my colleague Scot Sherman, I am working to develop a Reformed, ecumenical, and missional seminary here on the West Coast. We call it *The Newbigin Seminary Project*. Within it is an exciting initiative called [Wilberforce Fellowship](#), a lay training program in worldview, spiritual formation, and community. I also direct [City Church Counseling Center](#), which serves a wide range of spiritual and emotional needs for the church and city, and facilitates a lay counselor training program for the church.

I hold a PhD in Psychology with a special emphasis in the psychology and theology of soul care and spiritual formation.
